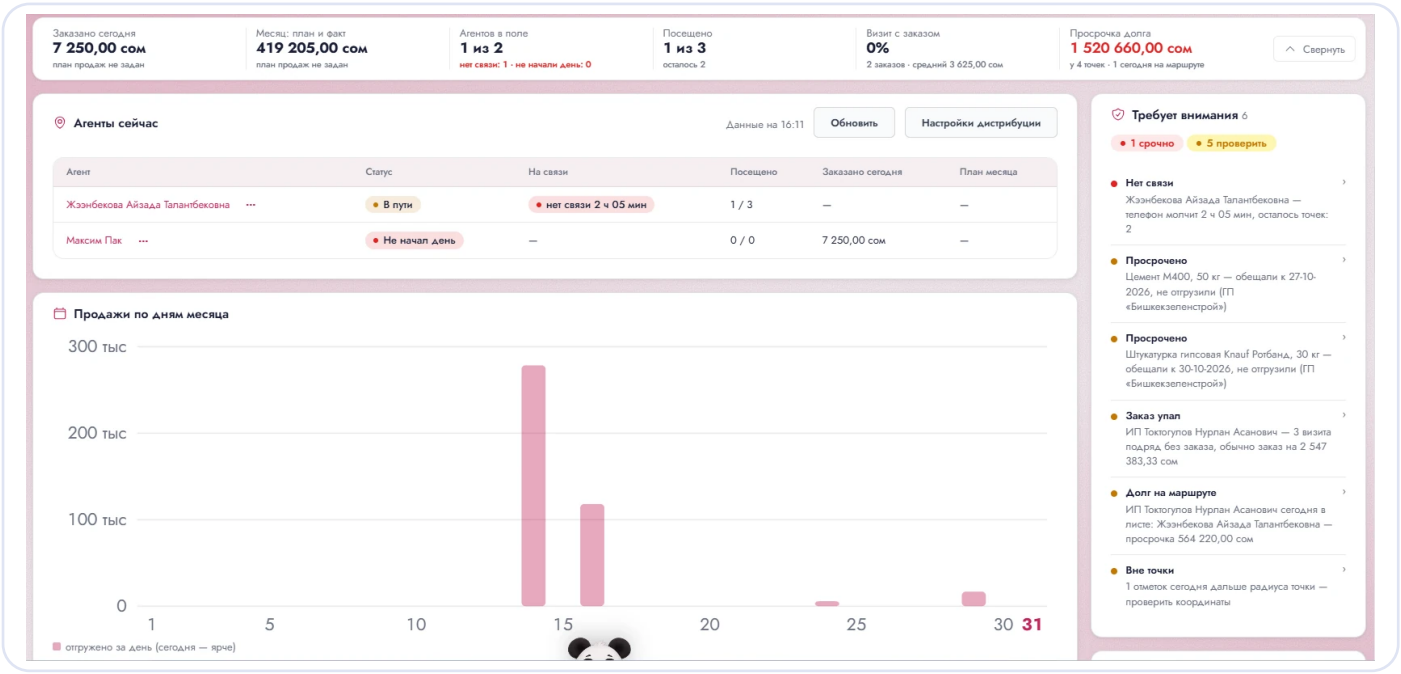
DISTRIBUTION & WHOLESALE

# Distribution automation.
# One unified system.

Agents, orders, inventory, delivery and finance work in one ERP. Current information flows online between departments.



Actual IprofiERP interface. Displayed data are examples.

### Manage your field team

Routes, visits, orders and photo reports. Agent results and KPIs connect to HR.

### Keep money under control

Receivables, credit limits, overdue balances and order margins based on recorded transactions.

### Connect stock and fulfilment

Inventory, batches, expiry dates, shipments and van sales in one shared workflow.

### Centralize company operations

CRM, HR, manufacturing, equipment and accounting work in one digital system.

**Also manufacture? Manage it in the same system.**

Demand and orders → production plan → batches → finished goods → shipment.

## Connect IprofiERP to your workflows

GPS, hardware and 1C integration is possible. We help import historical records, configure the system and train your team. Connection scope is agreed around your needs.
